Excess Wear and Tear

If you are using alternate rims (alloy or steel) with your winter tires, please note that the vehicle must be returned with the original alloy wheels and acceptable tires **installed** on the vehicle
- ▶ Broken, missing or severe curb damage to the wheel cover/cap will result in charges

- ▶ Unreparable steel wheels or alloy wheels that are broken, missing or bent

Schedule Your Vehicle Inspection

You can schedule an inspection appointment by calling the inspection service provider retained by Audi Finance at (866) 585-8050. Appointments are available Monday through Friday between 8 a.m. and noon and between 1 and 5 p.m. They can be scheduled at your home or work.

During the inspection, a specialist will evaluate your vehicle for normal and excess wear and tear. Upon completion, you will receive an inspection condition report, which itemizes any excess wear and tear.

Any excess wear and tear will be billed on your Final Lease Settlement Invoice unless you choose to have the items repaired prior to turn-in.

If you have any excess wear and tear charges, we highly recommend that you review the inspection results with your Audi dealer.

Make sure to ask your dealer if any of the repairs needed are covered under warranty, which may minimize your out-of-pocket expenses. Once the repairs are completed, mail or fax the receipts to us prior to returning your vehicle to ensure proper credit to your account.
